

Bellevue Schools Foundation supporters are investing **\$1 million** this year in programs that transform education and support students. Here are some of the ways these investments support kids at **Lake Hills Elementary School**:

- **Science-Technology-Engineering-Art-Mathematics (STEAM):** This is year five of a multi-year, **\$1 Million** investment to innovate the 20-year-old elementary STEAM curriculum, provide professional development for classroom teachers, engage families in STEAM learning, and support after-school robotics and coding activities for students.
- **K-12 Computer Science Initiative:** Bellevue's K-12 computer science initiative is one of the first-in-the-nation integrated K-12 computer science/computational thinking curricula. At the elementary school level, we are training teachers and piloting computer science lessons in language arts, math, science, social studies, and special education to develop interest and ability for students underrepresented in secondary and college-level computer science classes—like girls—and develop students' critical thinking skills. To date, Bellevue Schools Foundation donors have invested **\$400,000** in this cutting-edge initiative.
- **Early Learning:** Bellevue Schools Foundation donors are providing tuition assistance to preschool-age children experiencing homelessness so they can enroll in district Early Learning Centers. State funding falls short of needs for early learning in our community. Young children experiencing homelessness need high-quality early learning in a nurturing, full-day program. These 3- and 4-year-old children benefit tremendously from the evidence-based curriculum and access to social services. Donors have provided nearly **\$300,000** to help our neediest early learners.
- **Project READiness Early Literacy Support:** Lake Hills receives support for Project READiness Early Literacy in Kindergarten and 1st Grade classrooms. Instructional Assistants funded in Lake Hills classrooms give teachers time to provide individual and small group instruction in literacy. Foundation donors have invested **\$2.4 million** in Project READiness Early Literacy support to help students at Lake Hills, and other Bellevue high-needs elementary schools, develop into strong readers who are ready to learn.
- **National Board Certification:** Lake Hills teachers received support for their National Board Certification. National studies show that the quality of a child's teacher makes the biggest difference in the quality of their education. **24% of Lake Hills teachers have achieved National Board Certification.** Students benefit from their teachers' expertise and love of learning in Lake Hills classrooms every day. Foundation donors have invested over **\$950,000** to help the Bellevue School District lead Washington State in total National Board Certified teachers.

Visit the Bellevue Schools Foundation website, www.BellevueSchoolsFoundation.org, to learn more about educational programs at the elementary, middle, and high school level.

- Arts, Enrichment & Innovation (AE&I) and Music Grants:** Teachers can apply for grants to fund music, field trips, and more. Bellevue Schools Foundation donors have provided over **\$2.25 million** in these school enrichment grants over multiple years, including many grant awards to **Lake Hills teachers** for art, field trips, author visits, and more. See the table for this year's grants.
- Volunteers in Bellevue's Education System (VIBES) Mentoring Program:** Donors have invested over **\$1.65 million** in VIBES mentoring to support students in academic and personal growth. Last year, VIBES mentors guided more than 4,500 students in Bellevue's public schools.

2017-18 AE&I Grants	Teacher	Award
Read Across the World	Doton	\$500
Marine Afloat	McCormick	\$3,850
Mercer Slough 4th Grade Scientists	Pothitou West	\$495
