

Bellevue Schools Foundation supporters are investing **\$1 million** this year in programs that transform education and support students. Here are some of the ways these investments support kids at **Puesta del Sol Elementary School:**

■ **Science-Technology-Engineering-Art-Mathematics (STEAM):**

This is year five of a multi-year **\$1 million** investment to innovate the 20-year-old elementary STEAM curriculum, provide professional development for classroom teachers, engage families in STEAM learning, and support after-school robotics and coding activities for students.

- **K-12 Computer Science Initiative:** Bellevue's K-12 computer science initiative is one of the first-in-the-nation integrated K-12 computer science/computational thinking curricula. At the elementary school level, we are training teachers and piloting computer science lessons in language arts, math, science, social studies, and special education to develop interest and ability for students underrepresented in secondary and college computer science classes, like girls, and develop students' critical thinking skills. To date, Bellevue Schools Foundation donors have invested **\$400,000** in this cutting-edge initiative.

- **National Board Certification:** Puesta del Sol teachers received support for their National Board Certification. National studies show that the quality of a child's teacher makes the biggest difference in the quality of their education. **24% of Puesta del Sol teachers have achieved National Board Certification.**

Students benefit from their teacher's expertise and love of learning in Puesta del Sol classrooms every day. The Foundation has invested more than **\$950,000** to help the Bellevue School District lead Washington State in total National Board Certified teachers.

- **Volunteers in Bellevue's Education System (VIBES) Mentoring Program:** Donors have invested over **\$1.65 million** in VIBES mentoring to support students in academic and personal growth. Last year, VIBES mentors guided more than 4,500 students in Bellevue's public schools.

Each year at Puesta del Sol Elementary, we are thrilled to be able to lean on the amazing support and resources of the Bellevue Schools Foundation! This past year was no exception as we leveraged the Foundation's resource support to supplement our curriculum, including wonderful Social Studies extensions and author visits to the school. We also benefited tremendously by the Foundation's ongoing commitment to STEAM and computer science, with students, families and staff participating in a number of activities made available via the Foundation....Thank you, BSF, for all your incredible support!

—Jonathan Shearer, Principal, Puesta del Sol Elementary
